

Additional Zoom Tips . . .

It is suggested for a better viewing experience that you sign up and download the Zoom app, though it is not necessary. All you have to do is to click on the link below after 12:30PM. It will take a few seconds for Zoom to link you, so be patient. Once you are linked, it will be necessary for you to unmute your microphone and turn on your video if you want others to see you and hear you. When the meeting starts the host will mute your microphone to reduce feedback and background noise like dogs barking, and phones ringing.

For those unfamiliar with Zoom you can learn more with the tutorials at:
